

Neo Leif

Technical Rider
2022 / 06 / 10

Input

<u>In</u>	<u>Instrument</u>	<u>Source</u>
1 + 2	Laptop / Interface	DI-Box (Stereo)
3	Vox	Mic

Stage plan

Required equipment

- DI-Box (stereo) with 2x TS cable - stereo is preferred
- Mic (wireless or cable ≥ 2 m)
- Stage monitoring - stereo is preferred
- Table / Box / Stand for Laptop (5kg)

Sound

My music often has a high dynamic range and it is preferable that the audience can also feel the bass. Nonetheless, the sound should not be extremely loud.

Comment

The plan above represents my standard setup.

I'm an adventurer and very flexible. If you have some desires concerning the realization I'm pretty sure, we will find a solution. I'm also open for outdoor and traveling performances. For small groups I might not require a mic and I could also organize and bring my own equipment. Depending on the setup, my pricing might change.
