Now he's guiding you through his journey and welcomes you in a new world of rhythmic beats, atmospheric soundscapes and rocking, trendy, crazy hits.

Neo Leif - press text (long)

**Ready for an adventure?** The fearless rapper **Neo Leif** has researched all over the world to intensify the vibes in music.

As a juvenile he started acting in two rap musicals from the Sons of Gastarbeita in the Ruhr Area. From that time on he realized it's too boring to just rap about the usual stuff. He wanted to create special moments on stage. In parallel he developed his skills in composing and writing stories, songs and music. While he gained a lot of respect for his art, one thing was missing. He wanted to understand sound from the very basics. He studied acoustics and electrical engineering to be able to realize his artistic dreams.

For several years he worked and traveled all over the globe and got in touch with many cultures. By this, he got to know many other perspectives, saw the world from different angles and has been on a lot of adventures. He was checking out yachts in the south of France, he stepped through the jungle of Argentina, he partied with a friend in Atlanta, was hustled in Shanghai, got lost in the Balkan and danced on Brazilian beaches.

Now he's taking you on an adventure! Are you ready for some new experiences in your life? His music is new, fresh and crazy. Step into this world of rhythmic beats, atmospheric soundscapes and rocking, trendy hits.
